

BAR-MIN-EL

60 g/Kg	Magnesium (Mg)
57 g/Kg	Iron (Fe)
15 g/Kg	Copper (Cu)
39g/Kg	Manganese (Mn)
2.6g/Kg	Zinc (Zn)
1.3g/Kg	Boron (B)
1.9g/Kg	Molybdenum (Mo)
.3g/Kg	Cobalt (Co)
22.8g/Kg	Sulphur (S)

Bar-Min-El is a concentrated blend of minor or trace elements that are essential for healthy plant development.

Small levels of these trace elements help to balance soil deficiencies and overcome imbalances of nutrients within the plant. At the recommended rates Bar-Min-El supplies a plant with levels of nutrient which will exert a positive influence, either increasing crop production or improving the quality of the crop.

Bar-Min-El should be used in conjunction with a well-balanced N-P-K fertilizer.

RATES FOR USE:-

Flower & Vegetable Gardens:	Apply 20 grams per meter 2-3 weeks prior to sowing. For intensively grown plants with a long growing period a second application may prove beneficial when applied mid-season.
Pastures, Recreational Turf areas:	250 Kg per hectare.
Orchards:	Apply 1.1 Kg per mature tree (approximately 260 Kg/Hectare. Product should be used from within 60cm of tree fruits and out to the dripline.
Potted Flowers, Orchids, Indoor Plants etc:	Apply lightly around the edge of pots every three to four months. Water in lightly.
