APPLICATION

Apply 1.5 – 2.0 Kg per 100 m² (150 – 200 Kg per ha) as necessary. The higher application rate should be used when the turf growth is at its peak or when longer periods between fertilization are required.

Mow turf before application and allow at least 3 days before the next mowing.

Apply product with spreaders that will not crack or grind granules. Irrigate after application.

STORAGE

Product should be stored in a dry environment.

Carefully reseal bags or store in an airtight container.

NOTICE: This product is designed only for the particular purposes indicated on the label. Failure to use the product strictly as directed may be illegal, prove dangerous and render the product ineffective. The buyer or user is responsible for any misuse or negligence in the handling, storage, use of or disposal of this material. Barmac Industries Pty Ltd will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply and use of this product other than those responsibilities mandatorily imposed by Statutes applicable to the sale and supply of these goods.
