

Sure Start

A specially designed planting fertilizer
with water storing crystals

DIRECTIONS FOR USE

INGROUND PLANTING:

Mix 25 g (1 heaped scoop) of Sure Start per 200 mm (8") pot size with planting-hole soil.

POTTING MIX:

Mix 25 g (1 heaped scoop) of Sure Start per 5 Litres of potting mix and plant normally

LAYING TURF:

Incorporate 5 kg of Sure Start per 100 m² into the top 25–50 mm of soil. Lay turf and water thoroughly.

 Slow release fertilizer for long term growth.

 Humic Acid

 Scientifically prepared microbial blend for strong root growth and soil health

 Standard release fertilizer for initial growth

 Soil wetting agent to prevent water repellency

 RainSaver* water storing crystals for long term water and nutrient detention
