DIRECTIONS FOR USE

USES

- Barmac Turfbind Clear is suitable for application to bowling greens, golf greens and other turf areas which have developed bare patches or very thin turf. It will prevent loss of topsoil from wind and water erosion and reduce the damage to the playing surface from wear.
- Barmac Turfbind Clear can be applied with or after seeding to stabilize soil and reduce seed loss.
- The product is suitable for applying to bunker faces and stock piles of sand and soil to reduce wind erosion.
- Dust can be reduced on tracks and buggy paths by spraying the soil with Barmac Turfbind Clear on a regular basis.

RATES

Golf and Bowling Greens:

Apply 2 to 4 litres of product per 100m². Rate is dependent on the extent of the turf loss and the condition of the soil. Use the higher rate for very loose or unstable areas. Dilute Turfbind Clear 1:10 with water and spray over the whole area. Water from the leaf before product dries.

Bunker Faces and Piles of Sand or Soil

Dilute Turfbind Clear 1:10 with water and apply liberally to the required area using a low pressure, wide mouth nozzle.

The depth of penetration of the solution will determine the thickness and durability of the crust. If the soil has water repellent characteristics an application of a soil wetter such as Hydrowet or Wetter Turf prior to application will be beneficial.

Seeding

Apply 4 litres in 40 litres of water per 100 m² either with the seed if hydro-mulching or after seeding.

GENERAL

SHAKE WELL BEFORE USE. Do not apply product during periods of heavy rain or if rain is expected within 3 hours. Do not spray product if air or ground temperature is less than 5 degrees Celsius. Spray equipment should be washed with a detergent and water immediately after use and before product dries.

NOTICE: This product is designed only for the particular purposes indicated on the label. Failure to use the product strictly as directed may be illegal, prove dangerous and render the product ineffective. The buyer or user is responsible for any misuse or negligence in the handling, storage, use of or disposal of this material. Barmac Industries Pty Ltd will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply and use of this product other than those responsibilities mandatorily imposed by Statutes applicable to the sale and supply of these goods.
