PRECAUTIONS FOR USE

EXPOSURE STANDARDS: No occupational exposure standards have been set for this product or its ingredients. Standards for nuisance dusts should be observed.

ENGINEERING CONTROLS: Avoid generating and inhaling dust. Use in well ventilated area. Keep containers closed when not in use.

PERSONAL PROTECTION: While there are no specific requirements it is recommended that safety glasses or goggles, PVC gloves, long sleeved overalls and an appropriate dust mask is to be worn.

FLAMMABILITY: Product is not flammable.

SAFE HANDLING INFORMATION

STORAGE AND TRANSPORT: Product is not classified as dangerous under Australian transport codes. Product should be stored in a cool, dry place away from food and feed.

SPILLS AND DISPOSAL: Sweep up product and return to original or similar correctly labelled alternative container. Unless spilled product has been cross-contaminated it should be used in intended fashion in accordance with label.

FIRE/EXPLOSION HAZARD: Product is not flammable and will not support combustion. Decomposition is only expected in a significant fire supported by large quantities of combustible material. Decomposition products could be harmful if inhaled and appropriate precautions are recommended for fire fighters and other essential personnel.

NOTICE: Information for this product is believed to be reliable, however buyer and user assume all risk of use, handling and storage whether in accordance with directions or not. Barmac Industries Pty Ltd and its agents give no guarantee or warranty of any kind express or implied concerning the use of this product and will not accept any responsibility whatsoever whether in contract or tort for any loss including consequential loss arising out of the use of this product or caused by this product.
